

# WORK SMARTER

From 19" to 40"; iiyama's desktop monitors are available in a wide range of sizes, resolutions, connectors and features that will help you work smarter, do more and save time. iiyama has the perfect display for every workplace.

## OFFICE DESKTOPS

If you are in search of a reliable monitor that is ideally suited for regular office work such as email, the Microsoft Office Suite, browsing the web or using it as a dual monitor set-up or additional laptop monitor; iiyama's E and B-series desktop are your best choice.

They come in all regular sizes (19" to 27") with a wide range of regular connectors such as HDMI, DVI, VGA and even DisplayPort. With height-adjustable stands (**B-range**) or without (**E-range**). Take for example our **B2282HS** or the **B2482HSU**.

## BETTER PERFORMANCE

Want to get a monitor that can do more than just the regular office work?

Why not try one of our X-series monitors, such as the **XB2483HSU** or perhaps the **XUB2390HS**.

Our X-series are also very suitable for multi-monitor set-ups in combination with a monitor arm to free up your workspace. They are also available with height-adjustable stand (XB/XUB) or without (X/XU) and come in a bigger variety of sizes ranging from 22" up to 28".

Available in higher resolutions up to WQHD (2560x1440). With various aspect ratios (incl. 16:10) and different panel technologies such as IPS and AMVA.

## THE BEST

If you are looking for the best monitors for your desk, iiyama has them too.

They are available in the bigger sizes, from 27" all the way up to 40". These monitors can be used for the most demanding tasks such as video editing, security monitoring and desktop publishing. They come in different resolutions from WQHD up to 5K and some models are even available in white or silver!

Take for example our **X4071UHSU** or the **XUB2792QSU** or our **XB2779QQS**.
