

10% off Vision mounts
when bought with any screen until 30th June

Maverick AV Solutions

Vision Desk Mounts

Correct ergonomics are essential to avoid injury and maximise productivity. People who use a laptop (or tablet) with a second computer monitor should have their laptop screen at the same height as the monitor and have a separate keyboard on the desk.

With a wide range of desk mounts available, ensure you attach a Vision product with every hardware sale. And with **10% off Vision desk mounts*** when purchased with a screen, there's never been a better time to buy!
