

End-user cashback offer

Transceiver
just **£1**

Buy an Aruba 2930F switch and get an Aruba transceiver for **just £1**

The sweet spot for the 2930F Switch Series is network access in SMBs, branch offices and midsize enterprises with a mobile workforce. It is ideal for customers looking for a strong price-performance switching solution for the access layer with convenience of fixed form factor.

HPE pick up the full cost of the end-user cash back, subsequently allowing resellers to sell at standard price and retain margins.
