Achieve more together, anywhere it matters with Microsoft 365 Business and Tech Data

At Tech Data our dedicated Microsoft CSP team are here to help you maximise your opportunities with Cloud solutions and technologies – and support you in helping your customers to get the best out of these solutions.

Microsoft 365 Business is designed for small- to medium-sized businesses with up to 300 users and integrates Microsoft 365 Business Premium with tailored security and management features from Windows 10 Professional and Microsoft Enterprise Mobility + Security. It offers services to empower employees, safeguard the business and simplify IT management.

Microsoft 365 Business:

- Helps companies achieve more together by better connecting employees, customers and suppliers
- Empowers employees to get work done from anywhere, on any device
- Protects company data across devices with always-on security
- Simplifies the set-up and management of employee devices and services with a single IT console

Tech Data's close partnership with Microsoft makes us the go to distributor to support your business for all your Microsoft CSP needs.

We are ready to help you understand how to get the very best from Microsoft 365 Business products, and our fully trained and dedicated Microsoft CSP team of 10.

Help your customers empower their team, safeguard their business, and simplify IT management with a single solution, purpose-built for their business.

Achieve more together, anywhere it matters

With Microsoft 365 Business customers and their employees can work together more effectively with people both inside and outside their company so you improve the productivity of your team, anywhere it matters and across device platforms.

It offers a holistic set of business productivity and collaboration tools:

- Word, Excel, PowerPoint, Outlook, OneNote, Publisher, and Access
- Exchange, OneDrive, Skype, Teams, SharePoint
- Business apps from Office (Bookings, Outlook Customer Manager, MileIQ, Listings, Connections, Invoicing)

Microsoft 365 helps ensure your customers have got always-on security – to protect their business

With enterprise-grade device management and security capabilities, your customers can benefit from:

- App protection for Office mobile apps
- OnDevice management for Windows 10 Pro PCs
- Consistent security configuration across devices
- Protection of company data across devices
- Windows Defender, always-on and up-to-date

Simplified device deployment and user set up offers customers:

- Single admin console to set up and manage users and devices
- Auto installation of Office apps on Windows 10 Pro PCs
- Always up-to-date Office + Windows 10 Pro
- Streamlined deployment of PCs with Windows AutoPilot
