ACCELERATE YOUR BUSINESS

GET A PERFORMANCE BOOST WITH 8TH GEN INTEL® CORE™ i5+

UP TO
2X
BETTER
PERFORMANCE
VS. A 5-YEAR-OLD PC

The 8th Gen Intel® technology offers a huge 40 percent jump in performance compared to last year's 7th Gen hardware, but that jumps to a 2x improvement for five-year-old PCs. For your customers there has never been a better time to transition, so they can enjoy the benefits of this significant performance improvement.

The leap in performance is the result of a new quad-core configuration, power-efficient microarchitecture and advanced process technology along with a wide range of optimised form factors.

Contact your Tech Data account manager to transition your customers.
